AHEAD OF THE PACK

IF YOU, like me, turn green at the slightest movement of a plane or end up gripping the passenger next to you as if you were in a horror film, then the new British Airways Flying

with Confidence guide might well be for you.

Penned by the reassuringly named Captain Allright, a BA pilot, and psychologist Patricia Furness-Smith, the guide includes information on

how an aircraft operates, turbulence and gives advice and relaxation techniques from clinical psychologists.

■ Paperback and Kindle edition published on Thursday, £7.99, available from Amazon.co.uk
